Nominations For IIW Board Director	13

Please note: Mission Statements are restricted to 250 words and may have been edited to fulfil this requirement, whilst retaining the overall meaning of the statement submitted.

An Important note on Canvassing from IIW Executive

“Our members decided at the Virtual Convention 2021, that canvassing / asking for votes is **no longer forbidden** in Inner Wheel. Let’s remember that by being an IW member, friendship comes first, also at elections. We don’t have to humiliate or boo our friends when competitors or if we disagree. It’s what we can offer to the world through IW, not what other candidates can’t do that counts. At elections for national officers, candidates are asked to behave in the same, positive way. If we have friends canvassing for us, they should act with decency as well. If things are getting out of proportion and our first objective of friendship is violated, these breaches will draw negative attention to our organisation. We have to remember that we are not a political party. The use of social media must be handled with utmost care; reality shows that the keys to our mobile phones are often too easy to use.

We can meet this new challenge with dignity and pride; we have a rather long voting period, where canvassing is allowed. So, be a friend, also at elections”

Elected Unopposed As **IIW President 2022/23**

Name: **Zenaida Farcon**

Club: **Marikina**

District: **380**

Country: **Philippines**

Approx members: 1800

I am truly honored to be an Inner Wheel member for 33 years now. IW gives me opportunities to spread kindness and make a difference in the lives of others. I have been transformed by IW to become a Servant Leader who serves out of love.

My most exciting IW experience was my service in IIW as Board Director and Vice-President. I have witnessed the international character of IW, the diverse culture of members, clubs, districts, and national governing bodies.

As we head to our centennial year, I will work to promote IIW as a sustainable Global Organization, experiencing robust growth, responsive and relevant to the universal needs of women of all ages, resilient and adaptable to the new normal.

I envision IIW to expand its reach to Young Girls aged 12-17 through the formation of IW Youth Clubs in high school and college levels.

IIW will continue its service projects that will improve the lives of women and girls to advance our campaign for Strong Women Stronger World. IIW will actively promote its service projects on Social Media as a way to connect with all its members around the world and to attract the New Generation to become our members.

I envision a uniform Management System for IIW that will institutionalize the best practices of clubs and districts around the world. I will promote the IIW brand of leadership and culture to help produce competent, visionary, and agile leaders who can lead with understanding and compassion.

As a successful hotelier for over 30 years, I would describe myself as a people person with a caring attitude. My 34 years membership of Inner Wheel have taught me how important these qualities are. I lead from the front yet firmly believe in teamwork in Inner Wheel as in business.

Inner Wheel has given me many positive experiences, especially through my involvement in International Service – my absolute passion. I was delighted to be invited to join the Committee organising the new IW Covid 19 Charity. If I had the honour of serving as your Vice President, I would use all this experience for the advancement of Inner Wheel.

The unprecedented worldwide pandemic with its many restrictions has only served to underline how important our ideals of personal service are. Working together in friendship and with International Understanding we have, through the dedication, kindness and generosity of members proved that Together We Can. Indeed, our first virtual International Inner Wheel Convention demonstrated our commitment to Lead the Change, encouraging us to embrace the three-year social project for the empowerment of women and girls everywhere, Strong Women, Stronger World.

In 1924, 27 forward thinking, determined, dedicated ladies wishing to serve, were inspired to found our great organisation. With that same determination, dedication and ambition I will be inspired to pick up the baton and move resolutely towards an inviting new century of Inner Wheel.

Present, though manifestation of past indicates what holds in future. My mission -- make Inner Wheel a global brand, widely known for vital contribution to society. Being a philanthropist, I envision IW to be reckoned as the world's largest charitable service organization devoted for women, children, society and environment.

I envision to make orphan free world. Pandemic, poverty, war all are creating orphans. As association president, I gave a clarion call to make India orphanage free by 2024. All 1366+ clubs and 45940+ members took it as national project and facilitated adoption of 600plus orphans before pandemic.

I envision to facilitate healthy living for women and taking care of ever increasing aged population in the world. Collaborate with corporates, governments for schemes with grants and ensure better equipment and expertise to reach smaller towns and villages.

I envision adding clubs, districts and countries to double our membership by centenary year. To make IW more millennial by catching young members. Form new gen clubs in high school & college. One such way is "e" clubs with electronic membership. I envision to spread IW's message to younger, upwardly mobile population, who are prime movers of tomorrow. Social media platforms' outreach provides us with faster and more exciting ways to create visibility farther and deeper.

We must adapt & evolve to create lasting change to make our world a better place to live. Let iiw be known for its unique projects in changing world's demographic pattern. **Nothing is impossible, if you read "I'm-possible"**.

Approx members: 46,600

I am adept in comprehensive financial planning and implementation, revenue acceleration and adopting sustainable cost control measures. I also have a flair for networking and communication.

It is indeed a great learning experience serving as Treasurer of International Inner Wheel. I gained a lot of knowledge working closely with the IIW EC and Board Directors as a team. Interacting with National Representatives, Treasurers, Non-Districted Clubs, and members worldwide has given me exposure to deal with various situations and improve my management skills. I am thoroughly enjoying my work. My sincere thanks to each one of you for reposing confidence in me and entrusting me the finances of our organization.

A passionate, goal-oriented leader, I have been successfully using my potential and skills to further the cause of Inner Wheel over the past 25 years. I strongly believe that I have the necessary expertise, experience, and exposure to serve as IIW Treasurer again in 2022-2023.

My Vision:

To make Inner Wheel more vital and vibrant: Ensure meticulous financial management, adhere to the highest standards of integrity, accuracy, transparency and closely monitor foreign exchange rates.

Follow the latest techniques and tools in accounting; online banking transactions to simplify the procedure in maintaining accounts.

Encourage Membership Growth - 'Each One to Get One', to generate more income and help to promote Inner Wheel. Optimize the use of money on hand for showcasing Public Image because it is the lifeline to attract new members, for any organization.

I pledge to: Involve...Inspire...Illuminate...Inner Wheel!!

Inner Wheel entered my life in 1989; and since then, it is my passion. IW has evolved and I have too. To move with the times, adapt for betterment of the organisation and society, a key development has been learning the use and impact of electronic media, upgrading my designing, editing and writing skills.

Today the old adage **'pen is mightier than the sword'** has a wider context. Communication of information has changed monumentally, to include E-publications, Websites, Instagram, Facebook, Youtube, Social media. By using these powerful, popular methods we can spread the Principles Purpose and Projects of IW globally.

When Information is power, we cannot harness this power without distributing. **'A picture is worth a thousand words'**, believing in this, I have polished my video editing and graphic techniques. Images motivate others to replicate / participate in similar work worldwide. The outside world too gets the opportunity to gauge our capabilities, support our cause. Members are enthused, encouraged to extend their boundaries of assistance by effective motivation.

As NR, I initiated a 6000kms Mission on Wheels, before International Women's Day to promote IW. A Short Film **IW in India** was made for comprehensive imaging. **Print and E Newsletters** featured projects and events with data and pictures. Digital literacy and technology helped brand IW India nationally. Facebook was used extensively by clubs even as Newspapers and TV were effective locally.

By using our intelligence and talents, each one of us can be the best ambassador of Inner Wheel.

**NOMINATIONS FOR
IIW
CONSTITUTION CHAIRMAN
PLEASE VOTE FOR ONE (1) NOMINEE**

Name: **Sissel Høihjelle
Michelsen**

Club: **Lorenskog**

District: **31**

Country: **Norway**

Approx members: 1,100

What does it take to apply for the position as International Inner Wheel's Constitution Chairman?

Firstly – Knowledge and Experience: As an active member since 1987 I've been present at nearly all District Meetings, attended all IIW Conventions from Florence 2003 to Jaipur 2021, been active in debates and presentations there, and helped translating into Norwegian the Convention proposals several times as a Constitution Committee Member. It helps having a university degree in English. I've been engaged at 13 European Meetings, also as an organiser and speaker - to renew and strengthen IW.

Secondly – Engagement and Enthusiasm: I'm a team player – and a CC must be just that. If re-elected, I'll continue to perform my duty with transparency and respect – valuing Members' involvement, give advice and feedback to Members working on submitting proposals for Convention – as well as to Members struggling to understand our existing Constitution. Thus if I don't understand a possible proposal right away, I'll return it to sender to clarify the language and/or content – then in turn it will be easier to understand also for those translating it into other languages. The whole process is time consuming, but necessary for true involvement on all levels.

Thirdly – Courage: Constitution work is necessary and indicates change – not for the sake of change only, but for the upkeep and renewal of International Inner Wheel where bridging cultures are among our objectives. Building bridges may be hazardous - but needed – a strong construction makes us even stronger.

As Inner Wheel moves towards the centenary of its foundation, my vision on the future of our International Women's Organization combines the enhancement of the past with an ever-changing present, thus building the future.

The key points are: loyalty to the Constitution; the constant reminder of the origins, of the founder Margarette Golding, of history and deep roots. The convinced adherence to the values that Inner Wheel expresses and to the associative ethics. But also the promotion of a modernization process in line with the needs of today's society.

A necessary and inevitable process, to live an Inner Wheel in step with the times, capable of attracting the new generations, where Global Communication is now a reality made possible by the digital transition underway, which allows you to interact in the Inner Wheel world with ease, breaking down barriers and borders.

The importance of training at all levels should also be emphasized, through diversified training courses to meet every need, also using the specific material produced for the members.

The professionalization of the members is in progress, thanks to meetings and studies on Leadership, on the different positions, on the management of the Governing Bodies, so that effectiveness and efficiency are preparatory to achieving the set goals.

Commendable is the great ability to implement humanitarian and cultural services in every corner of the world, demonstrating unparalleled heart and generosity.

In all these years this has been my mission and I will continue with enthusiasm to work for Inner Wheel.

Inner Wheel is expanding towards our 2024 Centennial with strong foundations of worldwide friendship and service that reflect global impact through the commitment of its dedicated members in this demanding “new normal” world we are experiencing.

As active Governing Body members, Board Directors have crucial roles in helping shape the future of our Organization expanding membership and sharing experiences across borders to empower members and showcase their initiatives.

As seen during the Pandemic and the Virtual Convention, implementing our vision of cohesive teamwork and adapting to new and effective modes of worldwide digital communication and technology can maximize our sustained global achievements while bridging frontiers to reach out to multicultural and diversified members at all levels.

Being a beacon to dedicated new generations of members will ensure taking our organization to new horizons and will involve Non Districted Clubs in a myriad of cooperative initiatives.

As a member of Inner Wheel since 1981, I have served our organization diligently at numerous national and international levels bonding with members in friendship and service to further enhance our core objectives.

My previous experience as IIW Board Director and Editor/Media Manager has enabled me to open many horizons of cooperation between multinational members to expand our initiatives. If elected for a 2nd term as Board Director I hope to be able to strengthen our worldwide branding and to promote and empower expanding membership to use digital communication and social media to further make International Inner Wheel a widely recognizable entity impacting our world.

It is a great honor for me to be nominated for the position of Board Member.

I have been a member at Inner Wheel for more than thirty years and have had many great experiences and memories. During my time I got the chance to fulfill different functions and offices which brought me closer to Inner Wheel.

Each office has its own quality and is accompanied with different responsibilities and understandings.

I have grown with each office and have learnt a lot throughout it and I got to meet wonderful and outstanding women within these years. The experiences I have had at each level have motivated me and given me the courage to run for the office of Board Member.

I am very proud to serve Inner Wheel. Carrying the message of this great organization across borders brings me joy. I like to service and this to me it the heart of Inner Wheel.

From a Rotarian father and an Inner Wheel member mother, I only had one path: International Inner Wheel.

It has now been more than 20 years since I made that choice, since I was brought to actively participate in acts of service. From the very beginning, I never confined myself within the borders of the Club, rather I have immediately expanded to District activities, to then move onto the National level, and to the International by participating in the Conventions as a proxy vote-holder.

Although I have always been part of associations where helping others was the main priority, Inner Wheel has contributed to my development into a much more globally conscientious woman always ready to welcome new points for confrontation.

The vision that I have for IIW is one of interconnectedness. We have to stimulate each and every single Club to engage and to be present, not only within their own District, but also on a more global scale.

I would like for IIW to be a forum of exchange of thought and a safe space for women all over the world. What I believe is needed in an Association like ours is more of a managerial culture: even though we work on a volunteer basis, there should be a systematic plan in place for services and projects to happen. It should not just be about getting things done, rather there should be a more conscious component to it. As a potential Board Director, I am thrilled to "do what matters, now".

Approx members: 1,200

Since joining Inner Wheel in 2006, I have always taken on roles at Club, District and National Level. It is only after taking on these positions that one can fully understand the objectives of International Inner Wheel.

Having run my own business I feel that my leadership skills have benefitted the members of Inner Wheel in New Zealand and during my year as National President I have run a successful membership campaign, had a new website designed and introduced to members, ran a successful Conference for 200 members with much positive feedback, and advanced our National Strategy by introducing a Strategy Facilitator to our ranks.

By focusing on our National Strategy, we can be the Women's organization that current and new members are proud to be a part of, increase awareness of Inner Wheel in our communities, and set up our organization for future growth. It is imperative for organizations to have a strong succession plan and we have that here in New Zealand so I am excited for the future of Inner Wheel.

A successful nomination to the International Inner Wheel Board would allow me to share our plans and ideas with members throughout the world.

I am looking forward to completing 100 years of Inner Wheel in 2024, and envisaging a bright future for Inner Wheel worldwide for the next 100 years.

International Inner Wheel is an enabling and empowering organisation which encourages women to reach beyond themselves into their communities to build friendships that strengthen the role of women across the globe.

As a member in my home club I have been supported through connections of love and compassion to serve others in my town with enthusiasm and grace. I have been encouraged to step beyond my comfort zone by women I have respected and admired for many years. Their belief in me has given me the strength to reach further into myself in order to give more to others.

As this involvement grew into service in my District, this network of like minded women extended to many others, and then beyond into the National Governing body of Inner Wheel Australia through leadership opportunities that it has provided.

I have been exposed to different points of view and shared in both joyous as well as sad occasions as we have built relationships of trust and mutual understanding to ensure we serve others with integrity and fairness.

I want to ensure that our guiding principles live on for future generations so that other women can have the same opportunities that have been afforded to me to promote friendships through service locally, as well as internationally. In doing this we will all be creating equity of opportunity for women and girls in the future to become enriched in their lives and reach their full potential.

Club: **San Francisco del Monte**

District: **378**

Country: **Philippines**

Approx members: 1,800

I joined Inner Wheel Club of San Francisco del Monte, District 378 - Quezon City, Philippines in 1982, when my husband joined the Rotary Club of San Francisco del Monte, RI District 3780. "Selflessness in Friendship and Service to Humanity", our Inner Wheel motto in the Philippines, was my guiding principle in my 35 years of service in Inner Wheel, having held various positions in the Club, District and National Level.

I envision IIW to have strong learning and development programs for its members, for them to be more active and invite more members to join the organization. Learning not only the basics of Inner Wheel but also other topics or courses which will enable members to be great leaders in their own respective fields.

I also believe that education is the most important tool to empower women and I envision IIW to be the lead in promoting this not only to young teenagers, but also to adults and senior citizens. This will enable them to value themselves and therefore help and support other women in their society. As wives, mothers, daughters and sisters, we play a major role in building our families and eventually the community we belong.

In this world of volatility, uncertainty, complexity and ambiguity, we need strong women to build a stronger world.

2020/21

Name: **Feerooza Avari**

Club: **Karachi**

District: **327**

Country: **Pakistan**

Approx members: 1,120

I joined Inner Wheel Club Karachi in 1974. My goals then were simple meet members from all over the country, attend conferences and assemblies, learn about various projects and fund-raisers and promote friendship.

After becoming Charter District Chairman my desire was to expand the number of clubs with dedicated members.

However today my goals are to get international members to visit Pakistan, see and recognize the work we do. I want that members have confidence in themselves and their various projects. I want that smaller countries like Pakistan be appreciated for their contributions to this organization. Such visits will create understanding of each others' cultures and customs and bring members closer together. Pakistan has for years prioritized working with and for women. We can improve their lives with education and healthcare. We can help them with job opportunities and empower them to be self-sufficient.

We need to invest and focus on our environment by tree plantations and banning The use of plastics. If nothing else, the COVID pandemic has taught us that we need to clean up this Earth we humans have been gifted. The massive fires, floods, droughts and climate changes are proof of how carelessly we have destroyed our wonderful planet and the various inhabitants on it.

We need to bring back tranquility, peace and harmony in our lives and our world so that future generations can live a rich and satisfying life.

With the help of the Inner Wheel platform, we can go a long way in fulfilling that need.

Greetings! The past 20 years have been a beautiful journey of living by the Objectives of Inner Wheel. While serving as National Representative and IWUSA President I had the opportunity to visit clubs and districts in the USA, which gave me a glimpse into the wonderful work members are doing. Our Objectives bind all of us together throughout our world!

COVID presented challenges, but I witnessed strength in IW members continuing to grow membership, work on meaningful projects, communicating with clubs via email, social media, and virtual platforms. Communication is KEY to the growth of Inner Wheel.

I had an opportunity to live with my family in the middle east for 8 years. There I taught mathematics at an international school with 26 different nationalities. For those families, education meant a better and brighter future in their home country, especially for girls. Our UN Representatives do a phenomenal job keeping us informed on the plight of women and children in impoverished countries. Many of you are making a difference in those very countries.

It has been my privilege to be a voting delegate to 4 international conventions. I was honored to serve as a Trustee of the IWUSA Foundation for 9 years, two of those years as Chairman.

As we move towards our 100th anniversary - I ask you to:
Invite friends to a meeting.
Meet with a Purpose.
Collaborate and Nurture to keep clubs engaged.
Treat others as you wish to be treated.

Iclal Kardicali was born in Izmir, Turkey, where she studied at an American High School.

In Canada, she studied French-English Translation and Comparative Literature at Concordia and Music at McGill Universities. She received Masters Degrees; in Music Composition Management Administration. She worked as a piano teacher, conference interpreter, producer of Classical Music Programs for TRT and guest conductor of state orchestras in Turkey.

She is the Founding President of a Foundation for Education in Izmir.

She drafted its Charter, steered its Management and Developed the Teacher Training Program. While pursuing her performing career as a pianist and conductor, she teaches classes that combine Music and English Literature at the university.

At the age of 13, she organized activities by reading books to children at Children’s Hospital. Through IW and Rotary Projects, she works with women and children; organizing literacy and vocational courses for women, music and permaculture courses for children, Turkish classes for displaced families.

She has served as Club President, District Chairman and NR. She led the organization of “Women for Europe-Izmir”; as a member of the Organizing Committee of the Istanbul Convention she conducted the Inaugural Concert and was a voting delegate and speaker for a proposal at Jaipur Convention.

Iclal Kardicali perceives IW as the greatest women’s organization to empower women, to train and educate them in IT Technologies and reach out in charitable team work globally to promote friendship and service for international diversity and peaceful coexistence in the world.

“Lead the change” represents an invigorating challenge for our organisation. It encourages to look forward, make changes when necessary, modernise, take steps into unknown territories and open up for new initiatives and ideas. I am honoured to be nominated for the position of Board Director. It would mean a fantastic opportunity to work with members worldwide and to get the possibility to strengthen/change Inner Wheel.

My passion for Inner Wheel rests on friendship, personal service and international understanding. Having attended three Conventions in person and one in digital form I realise how strong our organisation is. Friendships and networks transcending borders, politics, religions and cultures are embraced and developed.

As a language teacher and assistant principal at upper secondary level adult education with students from all over the world my interest in international questions was aroused. Four EU-projects together with Spain, Portugal, Italy and Poland gave me knowledge and insight.

If elected my passion to recruit and retain members and to make our organisation known will get a wider platform to do so. To promote locally, nationally and internationally, to make our members aware we belong to an international organisation and as such have a fantastic opportunity to influence and make a difference is of utmost importance.

I will do my best to realise this vision and to share and spread the strength, the heart and compassion that Inner Wheel stands for.

The world situation is increasingly unstable. The challenges are climate change and infectious diseases. Climate change causes extreme environmental catastrophes which are followed by refugees moving to another countries.

Infectious diseases are spreading rapidly from country to country through travelling and this forces to close the borders.

IIW organization will give support especially to secure children's and families' future and wellbeing in those countries where help is needed. Purpose of services is preventative and focused. Quick service delivery needs a good communication tool. New technology, ICT environment, where I have been working during my career years, will be practical to use also in IW Club level in countries.

IIW organization is a service organization, where every position is the privilege.

Having served in IW Finland in various positions "Club, District and National level" since 1987 focusing on important topics e.g., projects "Sniffer dogs", "Life Education" and Ideals of Personal Service and Foster International Understanding. International understanding is very important to me, and it is present in IW Finland's operations.

I appreciated, when I was elected as IIW Board Director for 2021-2022 in international organization to guide and help Non-District Clubs to develop their activities in their countries.

It would be an honor to be elected as IIW Board Director for the next period. I will do my best further support and foster IIW organization's mission and goals. IIW in future will continue to concentrate and strengthen its organization and operations in countries with the most important topics it has chosen every year.

One hundred years ago Inner Wheel was formed out of the needs Rotarian wives had. Today our task is to inspire, attract, develop and adapt to our own time. I want to continue to be on this inspiration team as we need more engaged members on all levels.

Our rotation principle all through the organization from clubs to international level makes it difficult to have an ongoing development. Because of that it is important to work with the idea that Inner Wheel is not a personal achievement only for the President, but a common task for the boards at all levels. If we on the different committee levels set goals for the coming 3 years, it would be possible both to develop and have changes implemented.

We are claiming that we are an international organization. Let us show this in reality by accepting nominations for international offices from all that have the qualifications. Let us live by our objectives of friendship and international understanding.

I worked with Rotary's Youth Exchange Program for many years in my husband's Rotary Club before I became an Inner Wheel member in 2005 and have since then worked at all levels. As the Chairman of the Danish Constitution Committee, I prepared proposals both for the IIW Constitution and National By-Laws. Being a National Representative really made me feel inspired by our third objective, International Understanding. It was especially fantastic to be part of the work with the first virtual Convention 2021.

Inner Wheel has always been my organization. The core values of Inner Wheel are also my values, true friendship, helping others (personal service) and international understanding. That's why I would like to share the organization with other women around the world.

How to do that? Meeting other women through internet, learning about their countries and their lives. Develop lasting friendship and international understanding by sharing projects and club life details, and even participate in club meetings.

Since I've lived in China and USA, I've experienced how important it is to understand and be able to communicate with others, because it is cultural differences between countries. The more you know about other countries and their culture, the easier it is to understand each other.

Sharing is caring, we say, and that's true. If you don't know anything, you can do nothing, so let us share and show that we really care.

Norway had a project in Ethiopia called "The Fistula project". For more than ten years we have supported young women suffering from fistulas after giving birth. We paid for the transport to the closest hospital, where doctors did the surgery and the young women's new life began.

I would like to work for Inner Wheel to be the preferred organization for women of all ages all over the world, because I have Inner Wheel in my heart.

I am 63 years old and I am married with André since 1978. We have 2 children, a son and a daughter, and 2 grandchildren.

I joined IW as Charter president of my club in 2004. For 17 years I have held various positions at Club, District and National levels. My involvement has always been complete and I think I have acquired a good knowledge of our association.

The first time I heard about IIW I was very impressed by its international dimension. I attended Istanbul, Copenhagen, Melbourne and Jaipur Conventions. I love to meet members from all countries because I love to discover and understand the diversity of cultures.

If I have the honor of being elected as Board Director 2022/2023, I will be a link between IIW Headquarter and non districted Clubs. I will help these Clubs in their administrative tasks, a better knowledge of our statutes, to promote their social projects and all they will need for their functioning sharing my IW experience with them. My mother tongue is French but I also speak Spanish so I will be able to help French and Spanish speaking non districted Clubs. I also want to work in harmony and friendship with IIW Executive Committee and the others Board Directors to promote the expansion of our organization worldwide and our 2021-2024 international service project "STRONG WOMAN-STRONGER WORLD" because as said the French poet Louis Aragon "woman is man's future".

All our members spread over the world in different clubs make Inner Wheel. This international character is a strength which allows us to make a difference anywhere in the world. The choices we make are influenced by our knowledge and cultural background. Having lived in different countries, I learned that we all look at things differently. That makes it interesting to be part of an international organization.

It is important to connect with each other and to share our projects and initiatives. This 'IW-work' all over the world inspires members to create new ideas and initiatives. Each member can contribute in their own way to our organization. Together we create the impact and image of our Inner Wheel.

Interlocking wheels can create movement. Collaboration of different parts, even if they differ in size and speed, can have a huge impact. Even the smallest initiative can have a big effect. Therefore we need to work together across barriers. Hopefully I will get the opportunity to contribute as a board Director across borders to a dynamic Inner Wheel.

If we all keep our Wheels turning and set gears into motion, we will have an impact.

Together we can create an active Inner Wheel with a focus on women's interests that can respond to changing circumstances.

I joined IW 27 years ago and I have been Club President numerous times. It has also been a privilege to serve at District and National level with the support of the members.

Having taken the responsibility at District and National level it has allowed me to gain more knowledge of Inner Wheel. I would welcome the experience at International level to gain even more knowledge of this wonderful movement which has become my very way of life. The friendship that I have gained at home and abroad is priceless.

Attending the Conventions has always been a highlight because of the ladies of IW from around the world that I have met. With the technology we have now it has been made easier to keep in touch. I am pleased that IIW had opened up to ladies outside of Rotary because we need to make ourselves more visible through our deeds and social media.

In South Africa there is a need to help women and children and that is what IW strives to do with the various Club projects concentrating on education and health.

Club: **Klang**

District: **330**

Country: **Malaysia & Singapore**

Approx members: 690

I was introduced to Inner Wheel in 1999. Since there was no Inner Wheel club in my town at that time, I formed the Inner Wheel Club of Klang together with some like-minded friends from the Rotary Club of Klang of which my husband is a member of. We formed a great friendship amongst ourselves and we went on to serve the community around us.

After serving my club as the Charter President and subsequently other club portfolios, I went on to serve the District as Secretary, Treasurer, District Chairman, District Extension Chairman and National Representative in 2018/2019. Inner Wheel, for me, has opened up opportunities for learning and to better myself and those around me.

My passion lies in Training Club and District officers. I believe proper training will set the right note and the right platform for a committee to run a club or a district. My early education has been in Finance. I currently work part time in my husband's 2 Dental practices as a clinical administrator.

My vision for the future of Inner wheel is to open up opportunities for other women like me. There is no age limit to learning and I believe that women must embrace the changes that this previous year with the pandemic has brought upon us. We should embrace the technology and use it to virtually overcome the loneliness that some of us may be feeling.

Club: **Colombo West**

District: **332**

Country: **Sri Lanka**

Approx members: 445

Since joining Inner Wheel in 2007, I have served as President of two Inner Wheel Clubs, District Chairman and National Representative.

Together with fellow members, I have been involved in several projects to help the less fortunate, including provision of

- essential needs for children preparing for cleft palate surgery;
- purified water to four villages severely affected by Chronic Kidney Disease;
- education programmes for 10,300 school children and 2,476 women on child abuse;
- funds to Nepal to rebuild two villages affected by the earthquake; and
- Covid-19 related medical equipment to National Hospitals.

These opportunities have allowed me to serve my community at grass-root level and given me an appreciation of the scope of Inner Wheel's unlimited avenues of service.

The Covid-19 pandemic has brought with it new challenges. Given the opportunity to serve on the Board of Inner Wheel, it would be my mission to ensure that Inner Wheel continues to grow as a vibrant global network of members committed to building bridges of friendship, and to advocating for a more just and humanitarian society where all women are treated with respect and have equal rights.

My experience as an Accountant, CEO of multiple corporates, and Chief Commissioner of the Sri Lanka Girl Guides Association would also help me to assist the International Inner Wheel Board in the areas of finance, fund development, and governance. It is with this hope of serving humanity through Inner Wheel that I humbly put forward my nomination for Board Director.

District: **914**

Country: **Nigeria**

Approx members: 1,100

I joined Inner Wheel Club Ekulu in 1983 as a charter member. Inner Wheel invigorates, challenges and educates me. It gives me joy and propels me to get involved in activities that uplift the less privileged.

I feel very much at home helping women, youths and children improve their lives through Inner Wheel charitable works.

I would like to encourage more interaction among clubs of different countries and cultures to share experiences that will positively improve our branding of the charitable works members carry out worldwide - Women encouraging women to make the world a better place.

Presently, my club is sponsoring an indigent widow's daughter at the university. As district chairman I initiated a micro finance interest free revolving loan scheme in a rural community. Today the capital base of that scheme has increased substantially and empowered more women to be self-sufficient.

Inner Wheel services are needed all over, in developing countries and troubled communities. My vision is to see Inner Wheel become a household name worldwide. This can be achieved when we educate women to brace up to the challenges of eradicating poverty around them. Inner wheel will encourage, empower and evolve projects and activities that enable women and youths take responsibility for their lives through positive actions that will make them strong and by extension create a stronger world.

I am a good team player. For together we are stronger.

I am a keen gardener and one of the most enjoyable aspects of gardening is watching plants bloom and grow. I would like to think we can accomplish this in Inner Wheel with an abundance of friendship, belief in what we already have and plenty of nurturing and support to produce members and clubs.

I spent three productive years as Chairman of the Association Constitution Committee and I can assure you that Constitution is not boring – it is challenging! In my six years working on the GB&I Association Executive I was able to see first hand how much our members achieve both at home and abroad and to encourage and publicise their efforts.

I value the many friendships made over 35 years in Inner Wheel and feel that this quality and support for one another should be the centre of our organisation. As Association President I gave Inner Wheel roses as presents and was delighted to hear that, after a bad hailstorm, in amongst the flattened perennials, there was one plant that survived and still looked beautiful – the Inner Wheel Rose- which stands as a lasting tribute to our organisation!

Inner Wheel worldwide can make a difference to people's lives in many ways, and if elected, will continue with my efforts to ensure that this work thrives in the ever changing world – just like my garden.

Approx members: 380

It is a great honor for me to have been nominated in my country for election as Board Director for one more year.

I have joined IW 21 years ago when my IWC Stara Zagora was formed and since then my membership in the largest women's organization is privilege for me.

To me, IW is responsibility and love, friendship, goodness and inspiration.

IIW is an organization that is constantly and successfully developing and vibrating in the rhythm of modern society.

In all my membership I have had the opportunity to experience IW during various events and in various roles. I was a Voting Delegate during the 16th Convention. As a NR 2015-2017 I attended the 9th and 10th EM and took part in the Forum WfE6 and WfE8. Everything I heard and saw I shared with my friends from my District. I also followed this motto as a Chairman of D248.

This IIW year 2021/2022, as a part of "PINK FIRST" team as a BD, I am happy to share my experience with allotted NDCs and to learn about them, their activities and their countries. I would work with pleasure to strengthen our International organization through expansion - with quality, convinced and committed members; through training of all levels and promoting IIW by raising the public awareness.

Let's preserve the values of Inner Wheel - friendship, tolerance, respect, passion, empathy, skill share, appreciation while adapting International Inner Wheel to today's world.
